Summary

Data Scientist with expertise in machine learning, deep learning, and big data analytics. Proven experience in NLP, computer vision, and data visualization.

Skills

Programming: Python, R, SQL

Machine Learning: TensorFlow, Scikit-Learn, PyTorch

Data Visualization: Tableau, Power BI, Matplotlib

Big Data: Hadoop, Spark, Databricks

Education

Ph.D. in Data Science - Harvard University (2021)

Master's in Artificial Intelligence - University of Toronto (2019)

Experience

Data Scientist - Microsoft (2022 - Present)

- Developed an NLP model for sentiment analysis, improving accuracy by 15%.

- Worked on predictive analytics to enhance customer retention.

ML Engineer - Tesla (2019 - 2022)

- Built deep learning models for autonomous driving, reducing error rates by 12%.

Certifications

TensorFlow Developer Certificate

IBM Data Science Professional Certificate
